this history deals with the twenty year period between 1880 and 1900 when virtually all of africa was seized and occupied by the imperial powers of europe eurocentric points of view have dominated the study of this era but in this book one of africa s leading historians reinterprets the colonial experiences from the perspective of the colonized the johns hopkins symposia in comparative history are

occasional volumes sponsored by the department of history at the Johns Hopkins University and the Johns Hopkins University Press comprising original essays by leading scholars in the United States and other countries. Each volume considers from a comparative perspective an important topic of current historical interest. The present volume is the fifteenth; its preparation has been assisted by the James S. Schouler Lecture Fund.

In this book, one of the pioneers of twentieth-century African history examines the perceptions and responses of Africans to European colonialism of the late nineteenth and early twentieth century. This edition of Boahen's text, originally published in 1989, is contextualized in a new foreword by John Lonsdale, updating some of Boahen's findings and interpretations while maintaining that the best, totally unambiguous legacy of this republication would surely be the inspiration of a new generation of African scholars, locally based, as clear-minded and outspoken as Adu Boahen himself.

This book analyzes how colonial history is depicted in post-war textbooks worldwide from the mid-19th century to the 1960s/70s. It uses an interdisciplinary approach to explore portrayals in former colonizer and colonized countries, focusing on collective memory, popular culture, and academic knowledge.

An exploration of the rapid development of African Christianity, offering an analysis and interpretation of its movements and issues.

Choice Outstanding Academic Title 2023. What are the humanities as the cluster of disciplines historically grouped together as humanities has grown and diversified to include media studies and digital studies alongside philosophy, art history, and musicology, to name a few? The need to clearly define the field is pertinent. Herman Paul leads a stellar line-up of esteemed and early-career scholars to provide an overview of the themes, questions, and methods that are central to current research on the history of the nineteenth and twentieth-century humanities. This exciting addition to the successful *Writing History* series will draw from a wide range of case studies from diverse fields, as classical philology, art history, and biblical studies, to provide a state-of-the-art overview of the field. In doing so, this ground-breaking book challenges the rigid distinctions between disciplines and shows the variety of prisms through which historians of the humanities study the past.
